Sika·Design®
HANDMADE FURNITURE

Roof-top grotto, Bangkok
Architect: Jean-Louis Deniot
Photo credit: Stephan Julliard

A proud tradition of craftmanship

Sika-Design is a Danish family company from 1942. With a passion for rattan and great craftsmanship, we manufacture timeless furniture in both our own designs, and in designs by some of the world's greatest designers and architect.

We have been around long enough to call us the oldest manufacturer of rattan and wicker furniture in Scandinavia. Our history began with rattan but for almost 20 years we have also been manufacturing outdoor wicker furniture based on the same great craftsmanship.

Core values

With 3rd generation Louise Andreasen in charge, our mission is to make long lasting furniture. These should be created with the least possible impact on the environment which places great demands to the longevity of our designs, the way we produce, and the materials we use.

Social responsibility

All Sika-Design furniture is handcrafted in Indonesia where wickerwork is a tradition-bound craft passing down from generation to generation. Our products are made with care for the environment and the well-being of people.

The production is committed to a healthy environmental policy and an ongoing focus on improving the working conditions. Sika-Design is certified by ISO14001:2015 and SMETA by DNV-GL. This is your guarantee that we are committed to protect people and the environment.

Cretan Malia Park, Restaurant Almyra | Crete, Greece

Sika-Design

FOR PROFESSIONALS

We have spent the past 80 years to perfect the art of wicker. Today our furniture is not only extremely durable and comfortable but also so aesthetically pleasing that they found at high-end cafés and restaurants, luxury hotels, and wellness resorts all over the world.

Our collections are designed to live long and are therefore made in beautiful timeless designs and manufactured in strong maintenance-free materials. For indoor we use the strong and natural material rattan, and for our exterior collection we use aluminum and our own specially developed Sika-Design ArtFibre®.

Each piece of furniture is still handcrafted with the same tradition for craftsmanship, comfort and quality that has characterized Sika-Design for the past many decades. Comfort has always been a key factor and all our models are developed to ensure a pleasing experience.

Projects & 3D

To give our customers the best experience and options while planning a project, we have our full assortment available in 3D models. These models can be used in most interior design software and will give a high-end visualization of a project decorated with furniture from Sika-Design. The 3D models are available for download at our website in OBJ, SKP, STP and DWG.

At Sika-Design we cherish to work together with interior designers, hotels, and restaurants to make stunning decorations and projects. In this catalogue you can find a selection of worldwide projects done by our customers, who have decorated their stunning locations with furniture from Sika-Design.

Liberty Fabrics | Photo credit: Chris Everard - Belladonna Exterior Sofa & Ottoman

Downloads

On our website you can access our Downloadcenter. In here, you have access to high-resolution images, manuals, datasheets, 3D files and much more. A login is not required.

Images in high resolution

Images of all products both packshots and lifestyle can be found in high resolution. Packshots with shadows can also be found in web-format.

3D Files

Our 3D models are available for download at our website in OBJ, DWG, STP & SKP formats, and can be made in other formats on request.

Datasheets

We have datasheets available for all furniture models. The datasheets contain relevant information about the furniture, and are available as PDF.

Fabric color & styles

Fabric styles and colors are available as downloads in our Downloadcenter. They are divided into indoor and outdoor collections.

Color & material sheets

For each collection we have a sheet with a color and material overview. They are available as high resolution PDF's and are easy to print.

E-Catalogues

Catalogues are available on our website as iPapers. They are also available as PDF's in Downloadcenter and can be downloaded in high and low resolution.

A photograph of an outdoor lounge area on a terrace. In the foreground, there is a large, light-colored wicker sofa with white cushions and a matching coffee table. Two armchairs with white cushions are positioned on either side of the coffee table. The terrace has a white balustrade with decorative balusters. In the background, there is a clear blue sea and a large green tree. The sky is blue.

Customized orders

UNIQUE FOR LARGE QUANTITIES

We offer to produce our furniture in your own combination of colors. In the back of this catalogue, you will find a list with our standard models and an overview of available colors for custom orders. The colors available for custom orders varies depending on the material of the furniture. Be aware of minimum quantities and additional delivery time. Please contact us for inquiries or if you have any questions.

Upholstery and cushions

The quality of good craftsmanship is also felt in our cushions. Since the 1950s we have developed customized cushions for all our models, we therefore draw on great experience and expertise when deciding the shape and characteristics of each cushion.

Our upholstery and seat cushions are made to order and can be chosen from a broad variety of high-quality fabrics and styles. We also offer custom cushions using the customers own fabric. If you have a special request or a specific need, feel free to contact us.

Restaurant Almyra

CRETE, GREECE

Restaurant Almyra is found at the eco-friendly resort, Cretan Malia Park. At the resort, you find furniture matching the closeby marina in a gentle palette of blue and white which also refers to the colors of the Greek flag.

Our Sofie dining chair is found at the restaurant where standard models are mixed with customized models that has been created specifically for the location. Our Sofie dining chair is stackable and easy to store away if needed.

Roof-top grotto

Project by

JEAN-LOUIS DENIOT

Recognized as one of the world's preeminent talents in architecture and interior design, Paris based Jean-Louis Deniot creates extraordinary projects all over the world.

One of his projects is found in Bangkok, more precisely a 28th floor triplex penthouse topped off with a grotto pool design offering refreshing shelter from the sun. In the grotto, you can lean back and enjoy the view in our Charlottenborg furniture designed by Arne Jacobsen.

African Queen

BEAULIEU-SUR-MER, FRANCE

The African Queen in Beaulieu-sur-Mer is a deluxe brasserie located on the French Riviera. The iconic restaurant was established in the late 1960s with the name paying homage to John Huston's film with Katharine Hepburn and Humphrey Bogart from 1951.

Under the leadership of architects from Humbert & Poyet, the premises has been modernized while preserving the spirit and history of this now cultic restaurant. Supporting this purpose, our Romantica dining chair has been chosen presented with a cushion with the customers own fabric.

Palais Ronsard

MARRAKECH, MOROCCO

Surrounded by century-old olive trees, roses and fountains, you find the luxury hotel Palais Ronsard. With great attention to detail, interior designer Gil Dez has created a location that feels somewhere between a Tuscan villa, a colonial house and a Moroccan palace.

In the hotel lounge you can lean back and enjoy the calm atmosphere in our Donatello furniture. In the Donatello-series, you also find a 3-seater sofa and a lounge chair.

Le Perchoir

PARIS, FRANCE

On the roof of the Paris Expo Porte de Versailles, a huge entertainment complex in Paris, you find Europe's largest urban rooftop farm covering 14.000 m² of space. Placed in these wonderful surroundings, you also find the restaurant and bar Le Perchoir.

With sustainability at heart, Le Perchoir sources ingredients locally and even ultra-locally as you will find vegetables grown at the urban farm on the menu card. To support this message, the restaurant is decorated with the Rossini side chair handmade of the strong and natural material rattan.

Terra Laguna Beach

CALIFORNIA, USA

In Laguna Beach, California, you find the on-property dining destination and event venue Terra. Surrounded by nature, Terra sets the stage for unique experiences for their guests. Their dining area is decorated with our Monique armchairs that beautifully fits in with the natural surroundings.

Terra is dedicated to providing couples with a truly innovative and artistic experience. Outdoor they have an area where they make beautiful setups for wedding ceremonies, and for this purpose our Sofie side chair is being used. The Sofie chair is stackable and available in many different colors - and can also be made in custom colors.

Phi Phi

KERTEMINDE, DENMARK

Situated in the middle of Denmark, you find the historical town Kerteminde. Walking through the small streets of the city, it is possible to see its history as many of the houses are still original buildings with half-timbering and beautifully detailed doors.

In one of these old townhouses from 1855, you find the Asian restaurant Phi Phi. In addition to a strong focus on high quality food, the restaurant is run based on sustainable principles that include everything from ingredients and packaging to interior design. To support this principle Phi Phi has chosen interior made in the strong and natural material rattan.

Our iconic designers

At Sika-Design we are very proud to collaborate with some of the world's greatest architects and designers.

These include current as well as older iconic architects and designers with the common trait of being pioneers of their time. They all share a fascination of rattan and the endless and uncompromising possibilities that rattan's strength and flexibility enables. We share this fascination and when acquiring rights for old iconic designs it is important for us to work closely with the descendants to ensure the design and quality of the furniture, so they can continue their entitlement in the design world.

Rattan

PROCESSING & MANUFACTURING

According to the Indonesian people, rattan is hugging the rainforest. This is meant both literally as rattan grows like lianas around the trees but also figuratively speaking, because the use of rattan help preserving the rainforest as there is no rattan production without the rainforest.

80% of the world's rattan resources grow in the Indonesian rain forest. Rattan is fast growing and regenerates in the span of 5-7 years. In nature, rattan absorbs CO2 and produces up to 35% more oxygen than a tree. Rattan comes in 600 different variants and from these 40 can be used in the production of furniture. At Sika-Design we only use the two best qualities called Tohiti and Manau.

Making rattan furniture is extensive work that requires many skilled hands. The process already begins in the rainforest where experienced harvesters assess which lianas are mature enough to be cut down.

Processing of rattan

Our rattan grows in the Indonesian rainforest where it is harvested by hand. Before processing, rattan appears with sharp thorns which are scraped off before the lianas are tied up and taken back to the village.

In the village the rattan is classified based on type and size. The rattan lianas are cleaned in water, and dried under the sun. The big rattan is dried in upright position to get rid of the water more easily while small rattan is dried lying on the ground. From here, there lianas are delivered to the manufacturing facilities.

Manufacturing of rattan furniture

Rattan is solid, in opposition to hollow bamboo, and is therefore bendable. When steamed for 10-15 minutes, rattan can be formed by hand using old traditional manufacturing techniques and a few simple tools. In our rattan production there is no waste, as all residues can be used as fuel for the steam ovens.

Our most detailed furniture, such as the Rossini chair and Carlo bar trolley, are so advanced that only a limited number of our craftsmen are able to make these. Other pieces require great patience like our Hanging Egg chair, which takes one person, one week to make.

Indoor

The furniture in our indoor collections is made of the natural and solid material rattan. Rattan is a light and very strong material, and many of our dining chairs are stackable. Our indoor furniture is divided into 3 collections: ICONS, Originals and Affaire.

With our ICONS collection we share our passion for rattan and great craftsmanship with some of the world's greatest designers and architects. We revitalize old iconic designs from historical pioneers and produce new designs in collaboration with contemporary artists.

The Originals collection consists of Sika-Design's own original designs that are made across 3 generations. The collection ranges back to the very early Sika-Design's from the 1950s and up until today where we continuously look for new inspiration.

Our Affaire collection was initially designed for high-end cafés and restaurants but is today also used in private homes. It is inspired by the colorful chairs seen all over Paris and combines natural rattan with ArtFibre® in beautiful colors and patterns.

Materials & maintenance

INDOOR FURNITURE

RATTAN

Rattan is a natural material that is solid in opposition to hollow bamboo. Our rattan is of the highest quality, we only use the two sorts Tohiti and Manau. Rattan is nearly impossible to wear out and with proper care it can last for many generations. Rattan is recommended for indoor use and covered areas outdoor. If rattan is exposed to rain, it will turn grey and affect the durability.

MAINTENANCE: Rattan requires no maintenance but can be wiped with a lightly dampened cloth if needed.

ARTFIBRE®

ArtFibre® is used in combination with rattan in our Affaire collection. Our ArtFibre® is made of dyed hard-wearing polyethylene, and is temperature and UV-resistant. ArtFibre® is flexible and provides optimal comfort when woven. It has a strong structure that can maintain its shape for years on end.

MAINTENANCE: ArtFibre® requires no maintenance. It can be washed with a damp cloth if needed.

TEAK TABLES & TOPS

Our indoor teak products are made from reclaimed teak, which gives the furniture a rustic look as it appears with reparations and fillings. Reclaimed teak is collected from old houses, boats, and railroads giving each furniture a unique story. All our teak products are labeled Indonesian Legal Wood and is SVLK certified.

MAINTENANCE: Indoor teak requires no maintenance if you wish to achieve a vintage look. If you prefer to maintain the uniform color, it can be treated with oil. For daily cleaning, wipe with a lightly dampened cloth.

Outdoor

The furniture in our outdoor collections is handcrafted in aluminum and ArtFibre®. Many of the furniture is stackable and therefore easy to store away during winter or after a busy day. Our outdoor furniture is divided into 3 collections: Exterior, Alu Affaire and Georgia Garden.

Our collection called Exterior is made with the same beautiful expression as our rattan furniture and with the same respect for the original designs. The collection consists of Sika-Design's own designs and collaborations with some of the world's greatest designers and architects.

In our Alu Affaire collection you find a unique selection of outdoor bistro and café furniture. The furniture in this collection is inspired by our own designs from the 1950s and by the charming Parisian bistro atmosphere.

Our Georgia Garden collection is inspired by the old colonial style from British colonies and old Danish wicker furniture. The romantic collection of furniture is handmade of aluminum and fully woven with strong and durable ArtFibre®.

Teak tables & tops

Teak wood is known for its high strength and durability. Due to the wood's natural oil content, it is very resistant to wind and weather, insects, and rot. Our outdoor teak products are made from new teak sourced from plantations overseen by the Indonesian government, ensuring that no tree that is too immature or too small is cut down.

All our teak products are labeled Indonesian Legal Wood and is SVLK certified. This ensures that the wood has been sourced responsibly and can be traced back to the original sender.

MAINTENANCE Over time teak furniture exposed to sun and rain will turn grey. Teak furniture requires no maintenance but if you want to preserve the dark brown color, the teak must be treated with oil or teak sealer.

Tempotest fabrics

Our Italian Tempotest® fabrics are treated with a special type of finish. During the treatment process, the finish is deposited not only on the surface of the fabric, but envelopes each individual fiber. This forms an impenetrable barrier without compromising the fabric's breathability. It is also rotting proof and immune to the formation of mold and fungus.

The HI-Clean finishing makes Tempotest® fabrics water and oil repellent. The fabrics can be machine washed at 30° degrees.

QuickDry foam

QuickDry foam is an advanced, high-performance foam engineered specifically for outdoor use. QuickDry foam is exceptionally porous and drains water rapidly while circulating air with optimal efficiency.

This high-quality foam keeps its shape, ensures optimal comfort and has in-built antimicrobial protection.

Alu-Rattan

Alu-Rattan is aluminum which has been developed to resemble rattan and its unique shaping ability. Alu-Rattan is used in our Exterior and Alu Affaire collections where it is powder coated leaving a smooth finish and a vibrant color. The furniture is well-suited to be left outside all year long. It is easy to clean and is maintenance free.

MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

ArtFibre®

ArtFibre® is used in the Exterior, Alu Affaire and Georgia Garden collection. Our ArtFibre® is made of dyed hard-wearing polyethylene. It is ideal for outdoor use in any climate as it is temperature and UV-resistant. ArtFibre® is flexible and provides optimal comfort when woven. It has a strong structure that can maintain its shape for years.

MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

Glass tops

Our glass tops are made from 8 mm tempered glass. They are easy to clean and more durable than ordinary glass. It is important to handle it with care. A damaged edge or scratched surface can in exceptional cases cause the glass to crack suddenly. Avoid collisions from the side where it is most vulnerable.

MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

Versalite tops

Our versalite table tops are easy to maintain because of its smooth, scratch free and hygienic surface. These table tops are strong and stable. They are also resistant to all weather conditions which makes them the perfect choice for restaurants and hotels.

MAINTENANCE: Wash with water mixed with mild soap and remove stains with a sponge or medium brush.

Environmental responsibilities

As a manufacturer of furniture, we believe that our greatest positive impact is done by creating furniture in a quality and design that can last for generations, and thereby eliminate the need for frequent replacements.

For several years we have worked systematically with making responsible changes. Consideration for the environment affects which models we put into production as well as our choice of materials, how they are processed, and how the furniture is packaged and transported.

A continuous process

We produce all our furniture in Indonesia. We do this because 80% of the world's rattan resources grow in the Indonesian rainforest, and we therefore have the closest possible access to the best raw materials. In our production, we are very focused on avoiding waste. We do this because it is common sense, but also because it is an unavoidable part of Indonesian culture.

Our furniture is shipped directly from Indonesia to large export markets. This way we avoid that our furniture ends up on a double journey to and from Denmark. By shipping direct, we are able to reduce transport time as well as our carbon footprint.

Since 2013, we have been certified by ISO14001. Through this certification, we have committed ourselves to a responsible environmental policy as well as an ongoing focus on exploring new possible ways to develop and improve our business.

Our social responsibility

We are SMETA-certified and have worked systematically with social responsibility since 2013. A SMETA certification does not have a natural expiry date, but we have chosen to be re-certified every two years to ensure our employees working environment and to continuously keep ourselves up to date on possible improvements.

Our own factory, as well as our other business partners, are regularly audited. For all facilities, we have the same demands, namely that they must be managed in an environmentally and socially responsible manner - and we continuously improve in all areas.

Read more about our certifications and commitments below.

We are a part of the UN Global Compact. This is a voluntary commitment to implement universal sustainability initiatives based on 10 principles in the areas of human rights, labor, environment, and anti-corruption.

Sika-Design is certified ISO 14001:2015 by DNV-GL. This international standard sets a framework for us to continuously protect the environment and respond to changing environmental conditions in balance with socio-economic needs.

Sika-Design is audited by DNV-GL: SMETA (Sedex Members Ethical Trade Audit). This is the world's most commonly used ethical audit format and helps us on a continuous basis to ensure labor standards, health and safety for the employees in our supply chain.

As a manufacturer of furniture, we believe that our greatest impact comes from addressing UN Sustainable Development goals no. 8 and 12. By working systematically with ensuring a responsible consumption and production we work towards a better future.
